Alex,

This was sent to Lucy Morrison. Please post it to the DRI page.

Thanks,

Robb

Lucy- Could you please include in the written input for the Dillon project? Thanks. Dave

Dear members of the MVC,

I'm writing to you about the Dillon project at 112 Dukes County Ave in Oak Bluffs. I own three properties within 350' of this project. My family and I are year-round residents in one of those properties.

I have not met nor do I know the Dillon's but I'd like to register my strong support for their project. I have carefully reviewed the all the plans and examined the site. I believe this project is in keeping with wishes and desires of the majority of the people who actually call this neighborhood home.

Additionally I'd like to say that I believe in the MVC and its mission. The Dillon project is in no way a regional impact and therefore should be sent back to the town level without conditions. A full MVC review would well serve the Commissions detractors and add fuel to their "over-reach" fire.

Thank you for your time.

Respectfully,

David Diriwachter, President
