Dear Mr. Elvin,

We write as long term friends and admirers of Brian and Susannah Bristol and in support of their plans for their house at 1133 Main Street. We understand that the Bristols have made a proposal to rebuild their West Chop house and to live in it year round. In so doing, they would update factors such as plumbing, heating, wiring et al. Their rebuilt house will be a safer one.

Our family have owned properties in West Chop for over six decades and, like the Bristols, understand the importance of the shore line houses and their relationship to one another. As owners of two West Chop houses (one a 1750 house moved here in 1920, and the other an 1850 house across from the West Chop lighthouse), we understand what our needs would be should we decide to live in either house year round.

After reviewing their house plans with them, we are confident that Brian and Susannah will rebuild their house so that its appearance when completed is consistent with their existence house.

We hope that their rebuilt house plans can be approved soon.

Respectfully,

Bob and Happy Doran
