To: Alex Elvin <elvin@mvcommission.org>;

Dear Mr. Elvin,

I am writing as a neighbor and 50 year friend of the Bristols and prior generations in the family to strongly support their application before the commission to rebuild their home while preserving its original character and integrity in keeping with surrounding houses on our road. Their goal is to create a smaller replica of the original structure in order to take advantage of environmentally sensitive techniques now available.

The Bristols as family members before them have been instrumental in preserving the natural habitats (West Chop Woods) in Vineyard Haven and island wide . Thus I am confident that their rebuilding project will reflect this commitment.

I thank you in advance for your attention to granting the permit for this sound construction redo.

Sincerely,

Elizabeth Buddy
1232 Main Street
Vineyard Haven
