Dear Mr. Elvin,

My family has come to West Chop for several generations and have been close friends of Susannah and Brian Bristol who have even deeper roots in Martha's Vineyard. We understand that they have carefully planned the renewal of their family home at 1133 Main Street with concern for their neighbors and the greater Vineyard community. I strongly feel that they will be very mindful of preserving the most important features of their longtime home and the existing community around them.

Thank you for considering their thoughtful plans.

Sincerely,

Jack Reese
