

December 29, 2020

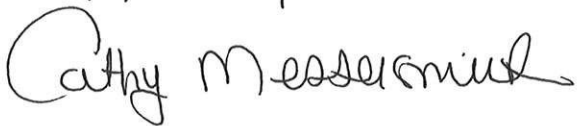

Dear Martha's Vineyard Commission Members:

As members of the family that has property next to your proposed development at 490 Edgartown-Vineyard Haven Road, we would like to express our opposition. To build that unsightly development so close to town would be insane. Through the years we have watched the traffic on that road increase with each passing year. In the summer it is bumper to bumper getting into town. The proposed facility would only make things worse.

A development of this size should really be located further out of town; where the lights, noise, and daily disruption would not be a bother to the neighboring homes. These are homes that have enjoyed a peaceful woods for many years.

We would respectfully like to request that you deny that development and keep what is precious about the Vineyard intact.

Thank you for your time and consideration,

Robert & Cathy Messersmith
