

## **DRI 555-2: Southern Woodlands – Proposed Modifications**

---

### **2004 Conditions with proposed 2015 Modifications in Track Changes**

- 1. As offered by the Applicant, the Applicant request the Commission approve the Plan attached hereto as Exhibit “A”, which was previously approved by the Oak Bluffs Planning Board, supplanting the original Plan. This plan includes minor lot line and open space adjustments.**
- 2. Subject to the approval of the Land Use Planning Committee, there can be minor adjustments to the subdivision line between the Land Bank portion of the property and the residential subdivision provided the area of the former is not reduced by more than 5%.**
- 3. As offered by the applicant, all fertilizers shall be slow-release, water-insoluble nitrogen source types both within common areas and on residential lots. No synthetic pesticides including herbicides, fungicides and insecticides shall be used in the maintenance of landscaping of common areas or residential lots.**
- 4.**
  - i. As offered by the applicant, existing Special Ways within the residential subdivision shall be preserved and protected with a 50’ buffer of natural and native vegetation as specified in the DCPC regulations. At sometime in the future, the developer may request approval from the Oak Bluffs Planning Board to relocate up to 40% of the length of the Special Ways within the residential subdivision to make them more accommodating to the residents of the subdivision without further review by the Commission.**
  - ii. As offered by the Applicant, See attached Plan for re-routing of the Special Ways.**
    - i. The Back Way Connector” would be re-routed along Paddock Road.**
    - ii. The buffer zone around those portions of the re-routed Special Ways which are located on the Lots, Lot Lines or along the Road, will be limited to ten (10) feet on either side of the Way as it runs in those areas, thereby creating a total of thirty (30) feet.**
    - iii. Excluded from such buffer zones would be any driveways accessing each building lot.**
    - iv. The buffer zones would also need approval from the Town of Oak Bluffs Planning Board.**
  - iii. As offered by the Applicant, a one hundred (100) foot setback on the rearline of Lots 12, 13, and 14, the first fifty (50) feet of which would be a no-cut zone restricted in each deed. The Lot dimensions would remain as per the attached plan.**
  - iv. As offered by the Applicant, the ‘area of alteration’ for construction of homes, lawns, landscaping and accessory uses, will be restricted to no more than 25% of the lot area or 20,000 sf, whichever is greater. Impervious area on each lot will be restricted to no more than 15% of the lot area or 12,000 sf, whichever is greater. In areas outside of the lot building areas, the cutting of trees shall be limited to no more than 30% of existing trees**

**(10” caliper or more”, subject to approval by the Oak Bluffs Planning Board and the MA Division of Fisheries and Wildlife**

- 5. As offered by the applicant, any vegetation used in the landscaping of common areas and in the buffer zones of residential lots shall be low-maintenance, native-type plantings.**
- 6. As offered by the applicant, only the following exterior lighting shall be permitted:**
  - **Lighting as required by the building code;**
  - **Lighting for outdoor recreational purposes that are designed and shielded to avoid up-lighting, and are turned off when not in use;**
  - **Motion-sensitive security lighting designed and shielded to avoid spilling onto any neighboring properties;**
  - **Low-intensity street lighting designed and shielded to avoid up-lighting or as required by the Oak Bluffs Planning Board.**
- 7. As offered by the Applicant, \$700,000 shall be paid at the time of the transfer from NLP to the buyer, to the Oak Bluffs Affordable housing trust. The originally proposed caretakers unit has been deleted from the plans.**
- 8. As offered by the Applicant, the Applicant shall work with the Commonwealth of Massachusetts Department of Fish and Wildlife (NHESFA) and the Land Bank.**
- 9. As offered by the Applicant, the buyer hereby offers to restrict the bedroom count to a total of 156 bedrooms on the site, and to require each Lot to install enhanced septic systems, or other technology as it becomes available, to insure the nitrogen level will be no more than 19 milligrams per liter.**
- 10. As offered by the Applicant, a Homeowners Association shall be completed and instituted prior to any building permits being issued on the Premises, which shall require, among standard association covenants, that any areas subject to tree clearing or thinning, must have the disturbed area re-vegetated with native island ground cover or otherwise. In no case should those areas become “landscaped” with lawn or nontraditional plantings from off island.**
