To: Alex Elvin <elvin@mvcommission.org>;

Dear Alex,

I still strongly oppose the expansion of the Hob Knob! Removal of the pool does not change the overall impact of this residential zoned property. Adding more parking is not a solution but more of the problem. Cars=traffic=noise=accidents!!!

And, the so-called "improvement" to the employee housing is still sub-standard housing. A basement kitchen without windows is hazardous and no living room does make for housing.

Once again, why is this project even on the table. This is a residential neighborhood. They had a one-time pass!!! No more... that's what one time means.

Have the courage MV Commission to deny this project. It's way out of line and excessive, and, furthermore gauche.

Let it go. Let it be.
