Hi Georgiana,

I am writing on behalf of Jayne Leaf, owner of property located at 223 Upper Main St. Edgartown to officially request consideration by all necessary boards for a modification to the original special permit for the construction of a mixed use building.

After careful consideration we have decided that commercial space does not meet the needs of our community and we would like to be a part of the solution to the housing shortage by adding two residential units in place of the commercial space.

The original plan called for commercial use on the first and second floor and residential on the third floor. We are proposing to (modify) the plan so that the second floor will be residential consisting of two 2 bedroom, 1.5 bath units. This modification will not effect the exterior of the building in any way nor will require any change in any way to anything other than the second floor layout and use.

Please kindly review our request and guide us to the next board we must appear in front of to continue this process as required by the Town of Edgartown. Thank you for your help in this matter

Kind regards

Colin A. Young
