The overriding goal is production of Chapter 40B-eligible affordable housing.

However, many HPPs also address other local concerns.
Building upon past work

This document also stems from an understanding that we are all invested in the quality of life of the Vineyard. Whether we live in Aquinnah or Edgartown, work in Oak Bluffs or Tisbury, were raised in Chilmark, West Tisbury or Boston, or summer on or visit the Vineyard, we are part of one Island community and rely on each other for the well-being of our families and ourselves.
Aquinnah has already exceeded 40B goal of 10% but still has local housing needs greater than 40B goal.

More than a quarter of all year-round households in Aquinnah have low/moderate income.

More than half of these households spend more than 50% of their total gross income on housing.

Source: 2009-2013 ACS, CHAS data

Estimated 18 of 35 low/moderate income households are severely housing cost burdened in Aquinnah.
Island-wide indicator of housing need

- Estimated 1,167 (52%) of 2,246 low/moderate income households are severely housing cost burdened on the Island.
- Only 411 SHI units and 99 rental assistance vouchers.
Develop a Housing Production Plan for each municipality on the Island as well as Island-wide

A plan to develop and preserve housing that is

a) Affordable for low/moderate-income households

b) Eligible for the Chapter 40B Subsidized Housing Inventory (SHI)

c) Address other housing needs beyond Chapter 40B requirements

Local Housing conditions

- Aquinnah has a higher percentage of homes valued at over $1,000,000 than the Vineyard as a whole.
- Aquinnah has had substantially more homeowners move in since 1990 than the Vineyard as a whole.
- Available housing sales data (from Banker & Tradesman) indicate that a number of sales and transfers have occurred where the sale price was well below market value. This may be due to housing sales or transfers between family members. A large majority of arm’s length home sales occurred prior to 1979.

INTRODUCTION TO EXERCISE #4: SMALL GROUP VISIONING DISCUSSIONS
WHAT THE HECK IS VISIONING?

IMAGINE FOR A MOMENT
WHAT YOUR COMMUNITY
COULD BE AT ITS VERY BEST.
A vision that works

Helps a community to

• Reach for goals above and beyond what is normally expected
• Discover possibilities that were not apparent before
• Motivates people to take action together
A good vision

• Is a stretch, but still in the realm of achievable
• Makes people feel hopeful and optimistic
• Is a way to work with change
A good discussion

1. Listen to others & respect all points of view
2. Adhere to time limits (brevity will be critical)
3. Everyone speaks once before anyone speaks twice
4. Agreement is not necessary
Objective
Work together to discuss housing needs and envision best housing future in your community.

Use of Results
Help the project team to:
• refine needs assessment
• draft a housing vision
• draft housing goals
