To: Alex Elvin <elvin@mvcommission.org>; Adam Turner <turner@mvcommission.org>; Lucy Morrison <morrison@mvcommission.org>;

Hopefully this is over soon but before the commissioners vote on this it does not seem fair to have obviously biased commissioners voting on this. Jeff Agnoli from Edgartown is on a conservation group and works for the school. He did point this out at the start of the hearing but anyone who believes his statement that he can be fair in his decision, I will sell you swamp land in Florida. As that is what is going on if he is allowed to vote, the swamp of the MVC will continue. Jeff's history is well known as he has been an outspoken person on the environment for many years. With 100 percent certainty he is voting for grass and that vote is locked in the bag. Shame on the MVC director who I thought was neutral on issues to not protect the integrity of the MVC and allow him to vote.

Regards

Bob Murphy
