Dear Commissioners:

I am writing to oppose the Hob Knob expansion in one of Edgartown's most historic residential neighborhoods. Not only is this project enormous, and way out of character with these 19th century homes, but the increased traffic and parking problems are unacceptable. This is a legal, R-5 zoned residential neighborhood. It is not here for commercial purposes and certainly not at all for commercial expansion.

As long time residents in Edgartown, this project does not belong here.

Sincerely,

Carol and Richard Fligor
