Subject: Cell Service Plan for Chappy

We are writing to support the proposed AT&T/Fynbo cell service improvement plan on Chappy. Our property is at 8 Mead Lane, and we have terrible cell service. It is not a convenience issue any more, but a real safety, security need for us and our family. Given the divisiveness on Chappy regarding this issue, the proposed plan is a good compromise. We are hoping it will improve our service, and we encourage the Selectmen to move ahead as quickly as possible.

Thank you.

Ellen and Clark Sole
