**Subject:** AT&T tower

As a long time summer visitor I am writing to voice my opposition to a cell tower on Chappy that will only benefit a small handful of users and will defile the beautiful unfettered horizon on the island. It would be one thing if the tower solved cell coverage issues for most users but it doesn't. It is not a safety issue or a convenience. It is a way for one resident to pocket a large sum at the expense of other residents. Please let my voice be heard!

Respectfully,  
Jennifer Clark
