**Subject:** Support for ATT cell tower proposal

Dear Martha's Vineyard Commission:

I would like to express my support of the plan ATT has submitted for the cell tower and cell coverage on Chappaquiddick.

I am 70 year-old year-round resident, and for almost 20 years, the only year round resident on Caleb's Common Lane. Having the confidence of good cell coverage in case of emergency will mean a lot to me.

Not only will ATT's plan make it possible for Chappy residents to communicate with each other in case of need; but most importantly, it will allow residents, summer beach visitors, and fire/EMT crews to communicate fully and quickly .

We will greatly appreciate your assistance in getting this sensible plan approved and in place soon.

Sincerely,

Mary Scott Spencer  
22 Caleb's Common Lane  
Chapoaquiddick
