Subject: AT&T tower on Chappy

Hi

I would like to voice my support for the cell tower on Chappy that is being proposed by AT&T. As a past EMT and current member of the Edgartown Fire Department I know first hand the trouble with not having good cell service on Chappy. I know the story of the lightning striking a man on Chappy and his wife not being able to contact emergency services has been relayed to you. But there are countless other stories of workers in the Enos lots being hurt and not being able to contact anyone for help. Also, there have been times when tourists on the Trustees properties have needed help and could not get it due to the lack of cell phone coverage. This is a public health issue and I feel trumps any aesthetic arguments anyone might have against this project.

Thank you for your time and work on this matter,

Rob Kagan
