To: Alex Elvin <elvin@mvcommission.org>;

Hello!

First, I thank you for your service!

Second, please add my name to those that are voting for all GRASS fields at MVRHS and around the island. For the many reasons that synthetic turf is *a bad idea environmentally and health-wise*, please let's go with the benefits of grass fields and work within our communities to fund their upkeep as we do our schools.

Most sincerely,

**Constance Messmer**  
Chilmark
