Begin forwarded message: I sent this letter in August and in view of the upcoming review of this proposal, I am sending it again, as I still stand in opposition.

Thank you, Linda Ziegler

To The MV Commission,

I oppose the expansion of the Safe Harbour Marina in the West Arm of the Lagoon.

We have the responsibility to protect the integrity of our ponds so that shellfish and the natural ecology may survive and thrive.

The proposed addition of boats and a concrete slab is in direct conflict with the work by many individuals to improve the dangerously failing water quality.

An expansion will surely seal the fate of the Lagoon as a failed natural resource.
