Subject: Stillpoint Traffic Monitoring

Good Morning, Lucy,

Will you please pass this email to the commissioners and into the Stillpoint public record?

Dear MVC Commissioners,

Thank you for hearing my concerns regarding traffic, noise, lights and cutting of bush/trees along State Road during the 3/9/2023 MVC meeting.

After hearing Dan Doyle present the MV traffic data, I thought perhaps you would consider requiring or installing an electronic traffic monitor at the entrance of Stillpoint Meadows Road. Such monitoring would give important real time and cumulative data to all concerned. It seems an easy way to monitor both the land capacity and neighborhood burden.

Thank you so much for considering.
