**Subject:** Phase 1 Support

Executive Director Adam Turner,

I am sending this email to the Martha's Vineyard Commission as a show of support for the Phase 1 project at our MVRHS. As a former player I would have enjoyed playing on a field such as the one proposed. I have experienced synthetic turf fields and facilities similar to the one proposed through an extra year at private school and college athletics. The opposition of this project is setting the future athletes of Martha's Vineyard for failure. Our athletes and community deserve to have a first class facility.

Respectfully,

Andrew Fournier '15
