Subject: New fields

To whine it may concern. I see a lot of naysayers that don't think of their kids. I have been a coach in this island for years and I am a parent of 3 boys. Oldest is almost 17 and the youngest is 5. I have watched kids unnecessarily hurt them selves on the Fields we have. It is time to upgrade. It is time to allow our children to have what we all want them to have which is the best

Thank you
