Subject: Synthetic Turf Field

Dear Planning Board,

My name is Donnie Gregory and I'm an Oak Bluffs Resident that supports having the synthetic turf field at the high school. I have three kids in which two play youth Lax at the high school and one that plays soccer, that will end up playing on this field. Living On Martha's Vineyard we as a community need to hold ourselves to a higher standard. This field will not only be good for our kids that play on it but will also help the grass fields around it to grow and flourish.

It's one field and won't cost the taxpayers anything to build. Let's give this island something we can be proud of. Let's get it done.

Thank you for your time,
Donnie Gregory
