Subject: FW: New Track and Field

Dear Adam,

As a parent of 2 high school 3 season athletes I am urging you to move forward with the new track and fields at the High School. My children have grown up on the island playing sports and travelling off for many games off island. We are fortunate to have such a great community but it is a disjustice to our kids to not offer them an opportunity to compete and play on what is the norm everywhere else we play. This island is an amazing community in that it comes together to raise funds when needed. Please move forward to give our kids a chance to compete at a higher level.

Thank you, Joellen
