Subject: Support for MVRHS Track and Field Project

To the Martha's Vineyard Commission and the Oak Bluffs Planning Board;

I am writing in support of the MVRHS Track and Field Project, Phase One designed by Huntress Associates.

Our school needs the synthetic turf field. Money won't fix the grass fields, taking play off the grass and putting it on synthetic turf will.

The annual grass maintenance cost of \$25,000 for 6 grass fields is an annual \$150,000 waste of taxpayer money. We will continue to be left with a failure.

The High School is trying NOW to address the problem with a real solution one synthetic turf field built by donations, please say yes.

Yes to the Synthetic turf YES to real solutions.

Sincerely,

Adam R. Wynn
