To:

Lucy Morrison;

Hi Lucy,

I'm a permanent resident residing at 21 Mt. Aldworth St. in Vineyard Haven. This turf issue is not new. There seems to be ample evidence of the negative effects of this chemically based product. And not only on the landfill disposal, but also on the possible health risks to the children playing on that type of surface.

To install a natural turf surface, in my opinion, is the way to proceed.

Thank you,

Bob Carnie
