Subject: Voice in Support of Phase One Track and Field Project

Hello,

As a three season athlete and captain of this past years Field hockey team, I want to voice my support of the proposed athletic field overhaul/track renovation. I have spend almost ever day after school, for the past four years, training on our current track and fields. My time on these sports teams have been very important, but there is no doubt that our current facilities are not up to date with what these athletes deserve. The student athletes at Martha's Vineyard Regional High School deserve facilities that will allow them to work as hard as they do, and reach their full potential. I remember being in the 7th grade, and hearing about the potential for a new track and field, I am now graduating high school. This project has been long overdue. Please do not let another 6 years, and a whole group of high schoolers pass through the system before these athletes get the surface and facilities that they deserve.

Thank you for your time,

Charlotte Packer
