Subject: Synthetic Turf

To the Martha's Vineyard Commission and the Oak Bluffs Planning Board;

I am writing in support of the MVRHS Track and Field Project, Phase One designed by Huntress Associates.

The school needs the synthetic turf field. The condition of the High School's grass fields are a result of competitive High School sports being played on them. More maintenance and money can't fix that fact.

As soon as the athletes hit the grass fields, under certain conditions at certain times of the year, we are back to the mess we have now. It happens every year. Thousands of other High Schools have come to this same conclusion. Please allow the school to build what is needed for our athletes.

Listen to facts not fear.
Say Yes to the Synthetic turf.
Sincerely,

Darren Morris
