Hello,

My name is Deborah Scheller I am a resident of Oak Bluffs and a mother of 2 student athletes, one a junior and one a recent graduate of MVRHS. I would like to show my support for the improvement plans for the High School Track and Field. I have spent many hours watching both my children play on the current horrible field. I have held my breath and said many prayers that they didn't injure themselves out there not because of the sports they were playing but due to the condition of the field. I have read all the research and am hoping that you along with the rest of the MVCC will approve the improvement of the field to the turf that is being proposed. There is no amount of maintenance that can keep the grass fields in the proper condition for play due to the amount of hours that it is used. Please give our student athletes that beautiful and safe turf field they deserve.

Sincerely

Deborah Scheller
