To the Martha's Vineyard Commission and the Oak Bluffs Planning Board;

I am writing to support the MVRHS Track and Field Project, Phase One, designed by Huntress Associates.

Our school needs a synthetic turf field. Money won't fix the grass fields. Taking play off the grass and putting it on synthetic turf will.

The annual grass maintenance cost of $25,000 for six grass fields is an annual $150,000 waste of taxpayer money.

The High School is trying to address the problem with a real solution one synthetic turf field built by donations; please say yes.
Yes, to the Synthetic turf. YES to real solutions.

Sincerely,
Maureen O'Malley
Oak Bluffs Resident and Mother of an MVRHS Senior.
