

RECEIVED

SEP 19 2019

Our names are Kevin Sebby + JoAnn Hathaway. We're the nearest neighbors to the expansion and we oppose this. at 27 watcha Beth

- 1) The M.V Refuse is located in the RA-120 residential district, so don't know how this expansion could be approved
- 2) ON the map the refuse is using to show where they would like to expand, doesn't show how close the neighbors are
- 3) VS and our neighbors have talked to Don Hatch on numerous occasions about changing the plans so that everyone would benefit, but hasn't changed anything.
- 4) We would like for the road to go around the front part of refuse and then few trees would be cut down and no neighbors would be harmed by ideally cars spewing carbon monoxide. Any run off from containers would be far enough away so not to contaminate our wells. Lastly, we wouldn't be subject to loud noises from all recycling, trash being put in bins
- 5) Kevin and I oppose the composter. Went to Thimble farm and as soon as I got out of car the smell hit me. The manager said that the refuse is going to be putting up a composter over 6 tons, compared to thimble farm one that's over 1 ton.

RECEIVED

SEP 19 2019

Also informed that composter would be installed now at refuse.

Some facts

Composter uses everything from scallop shells to trees.

All composter material is dumped on ground, until a tractor puts on conveyor belt. Then put in side composter that is very loud and runs 24/7.

The smell pipe let air out of composter emits liquids

Piles left out to elements to dry. ~~But~~ During rain storms, it runs down hill. Screening of compost - very loud. Saw glass, plastic, rocks in piles out of composter.

Finished product is 50-100 feet away - again sitting out in elements.

I suggest this go to West Tisbury - where there are no houses around to be affected with the noise / smell.

2) The MUC was created to make sure a project doesn't affect a immediate area and this project does.

We ask for this expansion not to be allowed as in present form exposing neighbors to carbon monoxide / noise and not being able to live a healthy life.

Thank You

Kevin Sebby + JoAnn Heth

ARTICLE VIII. RA-120 RESIDENTIAL DISTRICT

In an RA-120 Residential District, no building or premises shall be used, and no building or part of a building shall be erected or altered, which is arranged, intended or designed to be used in whole or in part for any uses except the following:

8.1 Permitted Uses

Any uses in the R-60 District except that the construction of a farm silo over 32 feet but not over 60 feet is also permitted, provided that it is set back far enough to avoid accidentally falling on abutting land or dwellings.

8.2 Conditionally Permitted Uses

requiring special permit from the Board of Appeals, in accordance with the regulations appearing in Article XV 15.5 and Article XI 11.6 of this By-Law.

Any conditionally permitted uses in the R-60 District except for the conversion to a two family dwelling.

8.3 Accessory Uses

Any uses permitted in R-60 District except that the grazing and housing of animals shall not be subject to the location restrictions on the lot.

8.4 Bulk, Area and Parking Requirements

Minimum Requirements:

Total Lot Area - 3 acres

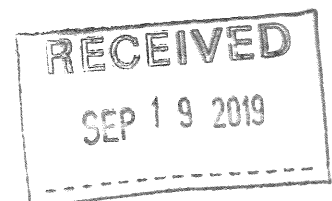

Front Yard - Setback 50 feet

Rear Yard - Setback 25 feet

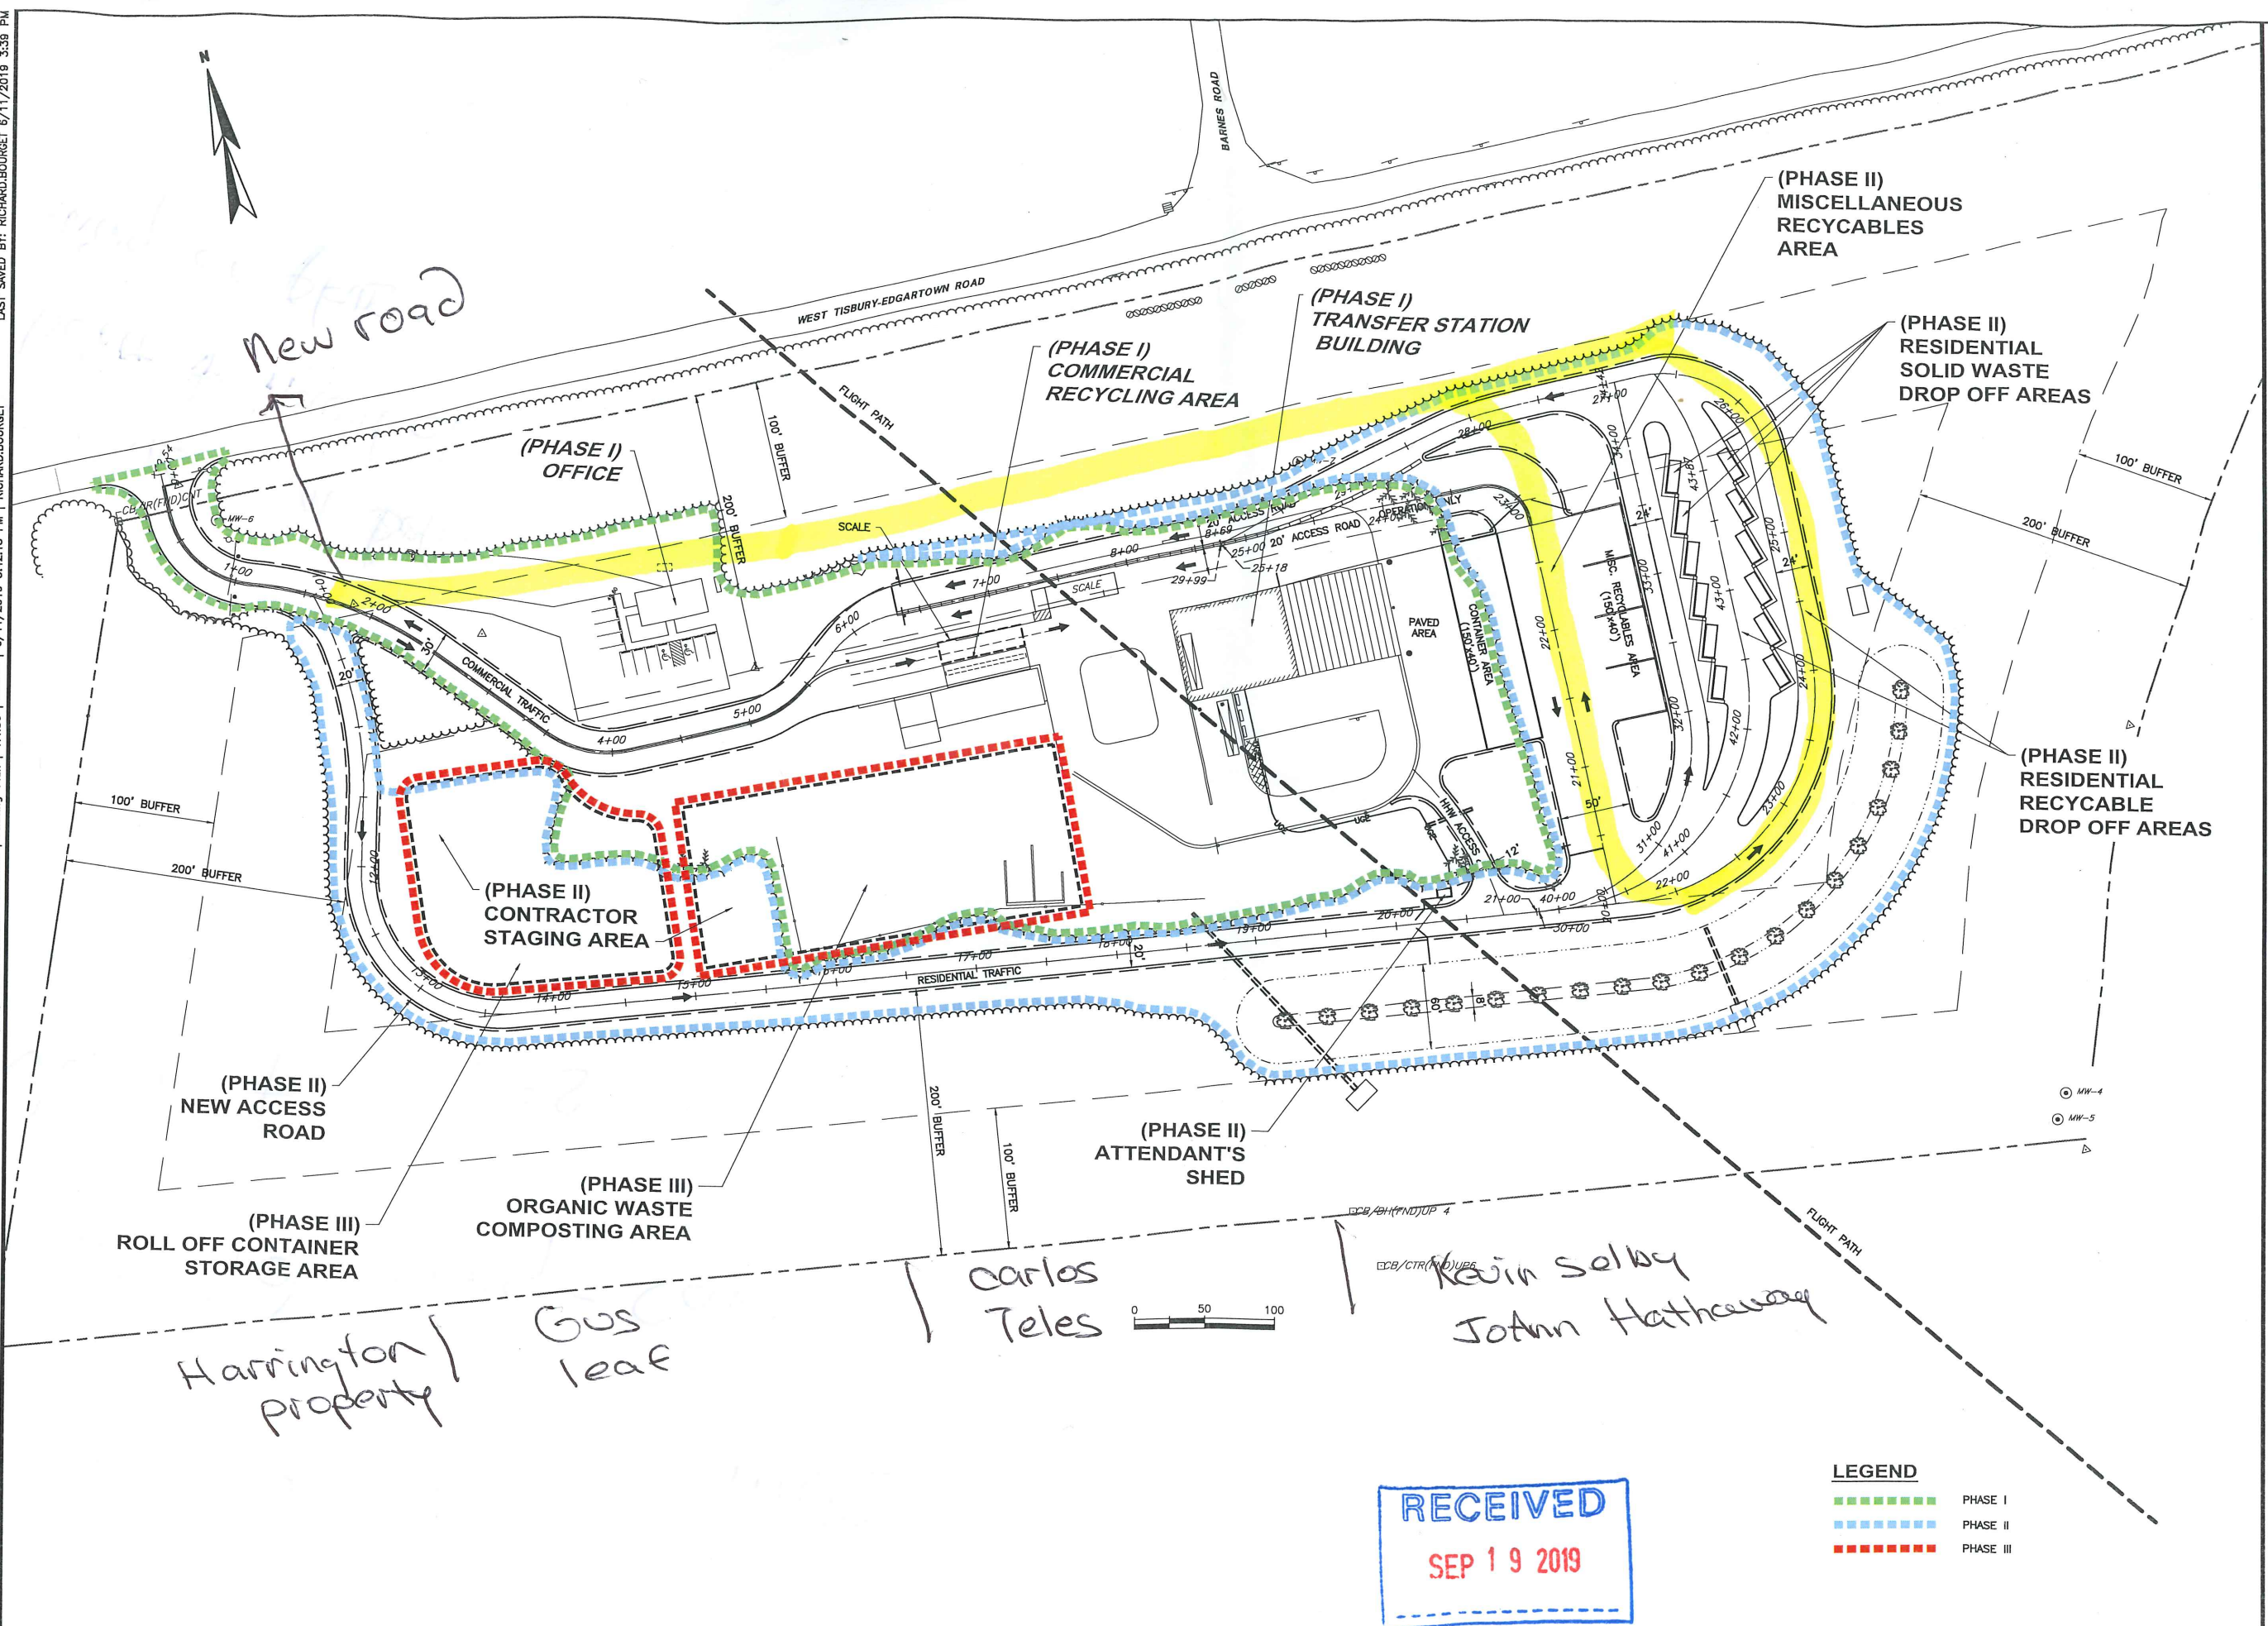

Side Yards - Setback 25 feet

8.5 Prohibited Uses

Transient Residential Facilities.
