Re: MVC approval of DRI 561-M3 (66 Old Courthouse Road Cell Tower Modification)

Dear Hollis,

I am writing to confirm that on Thursday, April 7, 2022, the Martha’s Vineyard Commission discussed the proposal to replace/add antennas and ground-mounted equipment at the cell tower compound located at 66 Old Courthouse Road in West Tisbury, which triggered the Development of Regional Impact (DRI) checklist a modification to a previous DRI. The Commission voted that the proposal did not require a public hearing, and further voted to approve the proposal.

The Town may now proceed with the permitting process. If you have any questions, or if there is anything we can help with, please let me know.

Sincerely,

Alex Elvin
DRI Coordinator
