Subject: Marijuana Dispensary

Dear Mr.Foley and members of The Martha's Vineyard Commission,

My wife and I purchased a new house on Dr Fisher Rd near the Old County Road entrance three years ago.

We are not opposed to a medical marijuana dispensary on Martha's Vineyard but are opposed to it's proposed location in the woods near our house.Our concerns are mainly for the increased vehicle traffic it will bring on our quiet dirt road, a NARROW road that is presently used by our neighbors with their cars and trucks. This road is also used by horseback riders to connect to ancient way trails and children frequently ride their bikes on it to access the ancient way trail that leads to the West Tisbury School.

The proposed location for the marijuana dispensary may seem like an ideal location for it's owners but it's not for many of us who live along the quiet and peaceful Dr Fisher Rd.

Regards,

Albert and Linda Fischer
