Interim Phase of Landscape Plan for Land Use Planning Committee Consideration

Good afternoon Paul:

Thank you for meeting with us at the site this morning.

As we discussed, we are not yet ready to submit a final landscape plan for the LUPC's review and approval.

However, at this time, we are requesting that we be approved by the LUPC to remove the six (6) dead/dying black oak trees on the site (as indicated (X) on the attached plan)...as part of the site clean-up.

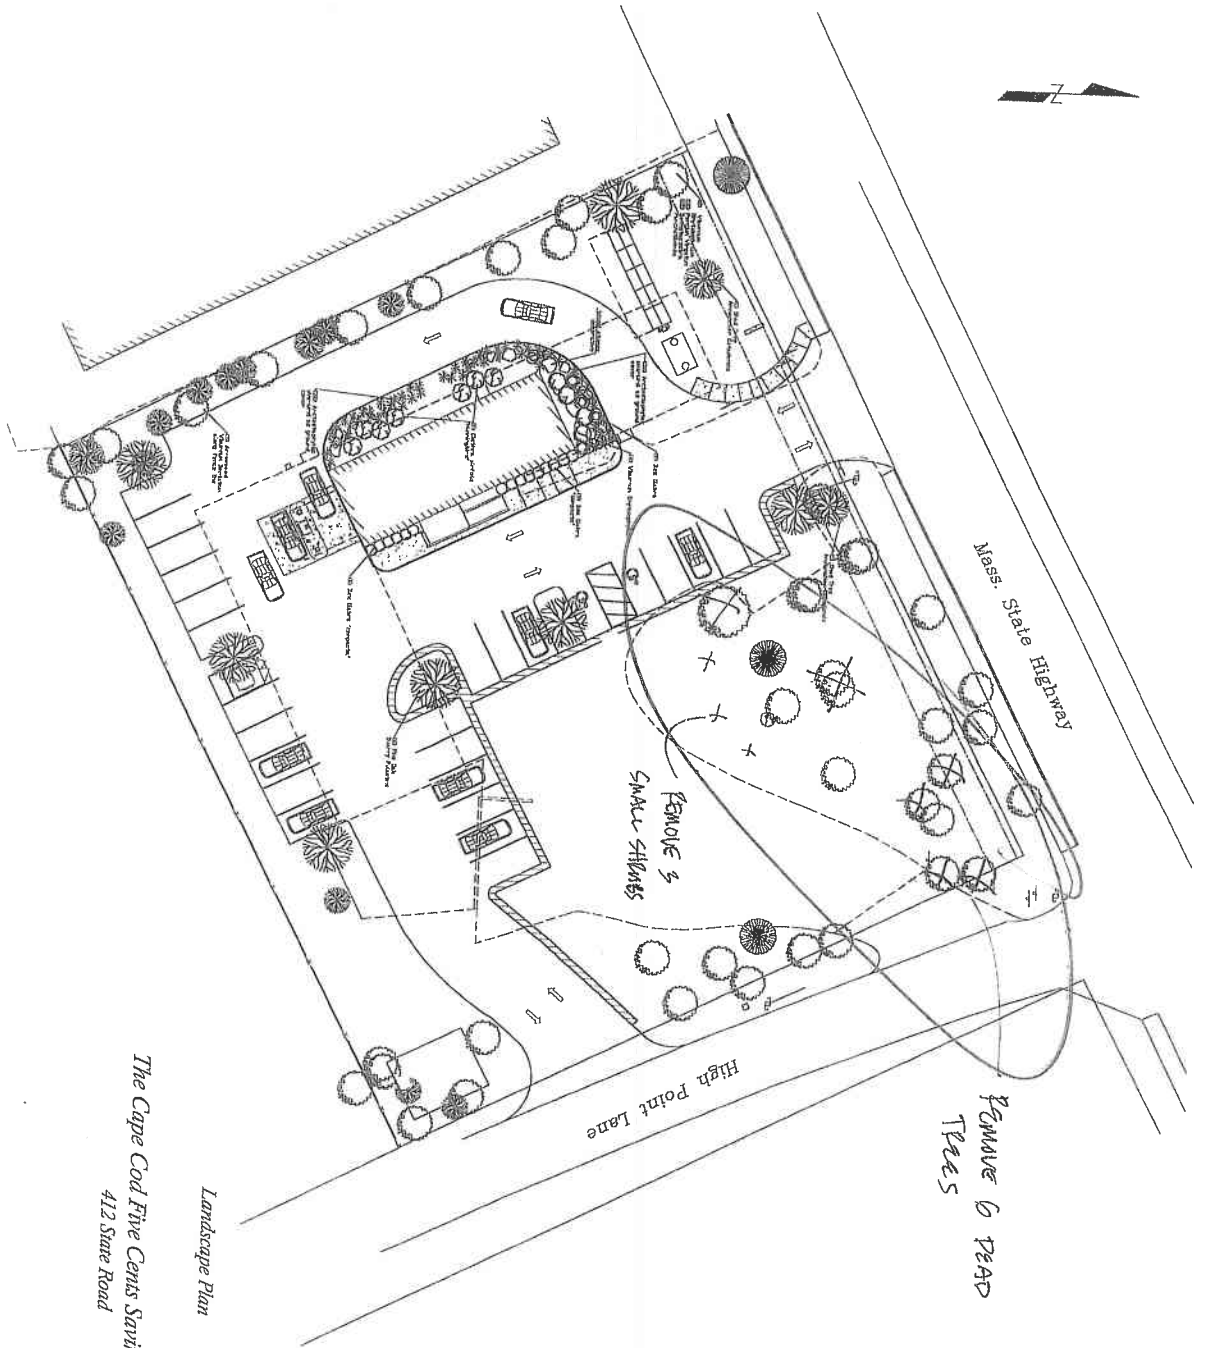

Please note: As included in our site/parking plan, our final landscape plan will include six trees; one located every 8 spaces, which will provide a shade canopy over the eventual parking.

Please let me know of any other information we may submit to assist in the LUPC's consideration of this request.

Thank you.

Sincerely,

Richard Leonard
