November 18, 2019

Good Afternoon,

This is an abbreviated version of an email that I sent to you but is delayed due to attachment.

As an abutter to the Barn Bowl and Bistro, , I am writing to join in reiterating the sentiments expressed in the very thorough letter sent to you this morning by my neighbor, Peggy Barmore, wherein she detailed the problems and difficulties encountered by abutters of the Barn and our united opposition to the addition of a takeout window.

Is there no end to the encroachments on the quality of our neighborhood and our right to quiet enjoyment?

For 6 years, we have been bombarded with numerous proposals from the Barn which seem to disregard the parameters for the Barn set by authorities. The Barn periodically submits proposals that would expand and distort its originally professed intentions.

Moreover, their proposals appear to be boundless and require the time and attention of our boards and authorities. This is a drain on valuable resources and creates the impression that the Barn's proposals are plausible despite the Barn's continual expansions and disruptions of the safety and tranquility of nearby homeowners.

Please reject the Barn's latest request to add a takeout window. Please protect us homeowners and the rest of the neighborhood. We also pay taxes and would like to see some finality.

Thanks you in advance for your consideration. Please forward this letter to Commission members.

Very truly yours,  
Diane Streett
