Dear Commissioners,

I see that Barn and Board are asking for review of their takeout window which was denied originally. I hope you will deny this request as they ignored your first orders and proceeded to install said window and had the audacity to open it. I understand that an Oak Bluffs select person happened by and saw it in use. It is shameful and underhanded for this to be done in my opinion. I know from a friend that the operators of the bowling alley ignore many requests such as placing trash receptacles near adjacent residences and emptying them at the ungodly hour of 5:45 routinely. Shame on them.

Please stick to your original orders and prohibit the use of the offending takeout window.

Thanks for listening. I am an Oak Bluffs native who lives a nearby (nee Surprenant).

Respectfully,

Renee Nolan
