Subject: CELL TOWER

Enough debate, install the cell tower for the Safety & Convenience of all people on Chappaquiddick. This is the 21st century! Years back some folks didn't want pens to replace the quill, not too many years back some folks didn't want fifth graders using calculators! It is ok to move forward a bit ~ this install could save your life or a love one's life.

Thank you for taking the time to read this email.

Best,

Cassandra M. Kloumann
