Subject: Chappy Cell Tower--AT + T

To The Commission,

I am writing to support the AT+T application to place needed cell service on the island of Chappaquiddick. My family has been coming to Chappy for 35 years ...On a good day we might get cell phone service for 30 seconds on Chappy.

For the sensible safety and well being of the island I strongly support that the AT+T application be accepted. This topic has had dialogue for months if not years, and now is the time to advance the public health and well being of residents in a thoughtful way that has been proposed by AT+T....A T+T has been responsible, accommodating and reasonable and a solid solution has been put forth. Lets move the issue forward and do what is right for the vast number of residents on this isolated island.

Respectfully,

S Jeffrey Bastable
