Subject: cell tower on Chappaquiddick

to whom it may concern, As a home owner for 30 years out at Wasque, I know the difficulty of getting reliable cell phone reception.

In the past, we have had to resort to going up on our roof to receive a signal. Now that I am almost 70, I think this could be getting a little dangerous. I for one am ready to continue bringing Chappy into the 21st century. I am sick and tired of the people who live in a 1950's bubble and are trying to keep the rest of us in it with them.

I need to have reliable communication options available as I age. I fully support the tower.

thank you, Laura Jemison
