Subject: Chappy internet hearing

I am a long time Chappy resident and one of the early users of Chappy Wisp. The service has steadily grown and improved over the years and I would like to see it continue.

Sometime in the future I would certainly like to see this located on town owned or public land however, this debate and delay has been carried on for too long. Right now I think this should continue as it is now operated.

I live out at the end of Wasque and it is certainly a relief to have very good service out here and over the years Bob Fynbo has always provided me with very good service. I think he deserves the chance to continue.

Nancy P Penhune. 87 Wasque Avenue
