A Petition by the Property Owners and Tax Payers of Edgartown to the  
Edgartown Board of Selectmen and the Edgartown Planning Board

We the undersigned are property owners and tax payers in the Town of Edgartown and are hereby notifying you, The Edgartown Planning Board and the Martha's Vineyard Commission that we object to the placement of a personal wireless communications facility (PWCF), otherwise known as a cell tower, on a half-acre non-conforming lot in Chappaquiddick's most populated neighborhood.

As concerned citizens we fear the implication of such a precedent setting decision not just on Chappaquiddick, but throughout Edgartown and across Martha's Vineyard.

We the undersigned urge the Board to reject the application by New Cingular Wireless (AT&T) to build a cell tower at 16 Sampson Ave and instead, urge the Town and AT&T to find a more suitable location in Chappy' sparsely populated, wooded interior which, in keeping with the town bylaws, distributes the burden of such a facility equally among the citizenry of Edgartown and Chappaquiddick.

Sincerely yours,

A Petition by the Citizens of Edgartown to the  
Edgartown Board of Selectmen and the Edgartown Planning Board

We the undersigned citizens of the Town of Edgartown do hereby petition the Town of Edgartown to seek an alternative location upon which to site a personal wireless communications facility (PWCF) otherwise known as a cell, or cellular tower.

We the undersigned do not believe it is in the best interests of the the Town of Edgartown, the Island of Chappaquiddick and the residents of the "Enos Lots" to site a cell tower on a half-acre non-conforming residential lot in Chappaquiddick's most populated neighborhood.

We the undersigned ask that the Board reject the application from New Cingular Wireless (AT&T) to site a PWSF at 16 Sampson Ave and utilize the remaining time in the temporary tower permit to find a site that causes less damage to the property owners of the Enos Lots and which, in keeping with the town bylaws, shares the burden of such a facility across all the residents equally.

We the undersigned believe that in such a heavily wooded and lightly populated area as Chappaquiddick a suitable wooded lot can be found in which to house such a facility.

Sincerely yours,
