Subject: Chappaquiddick Cell Tower

I am unable to attend the meeting tonight but would like to register my support for a cell tower on Chappaquiddick. I strongly feel this is a public safety issue, and in today's world cell reception is very important. In addition, not having cell reception at my home on Chappaquiddick is very inconvenient and expensive.

I feel a cell tower will have negligible aesthetic impact, and will not even be visible from most locales. I regret the impact on immediate neighbors, but Chappaquiddick does need cell reception and we have waited too long to move ahead on this.
