**Subject:** Chappy Cell Tower

I am writing in connection with the proposed cell tower on Chappy. My wife and I own a house on Wasque. If the tower is built, we strongly oppose the use of the faux tree model, which looks totally artificial and will degrade over time. We would rather have a simple open tower that does not look fake and out of Disneyland. The faux tower would not be in keeping with the island.

Thank you. Steven Kanes and Nancy Moore
