Subject: Featherstone

Good morning Paul,

After attending the MVC meeting last night, Sept. 1st, I'm writing to ask that the MVC examine the lighting plan before giving final approval.

Living near Featherstone and being a participant in many classes/events there I support the expansion. However I am concerned about the lighting. Though not an abutter, I am a neighbor and would have to see lighting that's more powerful than necessary. Perhaps they would consider solar lights which feature motion sensors.

Sent from among the stars.....Susan
