On August 22, 2019 the public hearing on the Meetinghouse Way application was closed with the written record left open until August 29, 2019. On November 18, 2019 the MVC received correspondence from the Meeting House Place applicant proposing an additional set of offers, as well as some changes to the proposed development plan. The applicant also requested that the public hearing be re-opened to consider these matter. Based on Section 7.3 of the Martha's Vineyard Commission Regulations for Development of Regional Impact (approved October 2014) we are obliged to consider these revised offers and plans. Therefore, we will re-open the public hearing.

This is not an unprecedented action. There have been numerous DRIs that proceeded through many iterations before a final decision was made.

In order to give all involved parties an opportunity to participate we will segregate and separately label the latest proposal on the DRI section of the Commissions web site. We will also schedule the re-opening of the public hearing at an appropriate date, most likely in January, which gives all parties a chance to review and comment on the latest proposal.

If you have any questions, please contact Adam Turner or Dan Doyle at the MVC.
