Dear Members of the Martha's Vineyard Commission,

I am sure that you all saw this article in the MV Times
https://www.mvtimes.com/2019/03/20/design-qa-design-homes-can-age-place/?fbclid=IwAR1GAjVuNFedf5SP8pLKPC5YcxYA2Xw3HKDLoVaLFa2d0ZjR53_ed6IEKrE
which delineates South Mountain's efforts to build homes that allow seniors to age in place.

I had submitted a previous letter opposing the Meetinghouse Place subdivision proposal. I would like to add to my comments that this vote by the MVC provides an opportunity for you to address the housing needs of the growing over 60 population on the Vineyard. This article helps to show the way. We do not need McMansions, we need housing for our existing population.

Geraldine Moriarty
