Paul,

Hope this note finds you well? I wanted to send a quick note to say that I oppose the proposed Meetinghouse Way subdivision.

Such a large development in such close proximity to the Edgartown Great Pond poses a threat to that important estuary and I believe adds significantly to the burden on town services: wastewater, fresh water, electricity and traffic. It is just too much, too big. a development for really any location on the Island.

I would ask the commissioners to reject this proposal as being far too impactful in all of the areas described.

Thank you for your time and attention.

Best regards,
