

Dear MVC:

As a resident of Katama and frequent enjoyer of Edgartown Great Pond, I would like to voice my negative opinion on the Meeting House subdivision that is now before you.

I have owned property in this area of Katama since 2001, drawn by the quiet solitude and my love for the pond. Over the course of nearly 20 years, I have witnessed the overall health improvement of the Pond, and worry what a subdivision of the magnitude of MHS will have on the environment in general and pond in particular. The ecologically fragile area doesn't need the development and congestion that it will bring.

Please vote NO on the subdivision proposal.

Kind regards,

David Dickinson
