Mr. Dan Doyle

MV Commission

RE: Meeting House Place

Dear Mr. Doyle,

As an abutter to the Meeting House Place proposed subdivision, we have been offered connection to the town sewer system along with all the residents of Hotchkiss Lane.

While some Hotchkiss homeowners are against the sewer connection, I understand that there are 7 who would connect. It seems to me that this would be a real help in lowering the Nitrogen levels locally and really benefit Great Pond.

Great Pond is wonderful natural resource and anything that will help preserve it is a plus for Edgartown and all the Vineyard.
