

July 2, 2020,

To the Martha's Vineyard Commissioners,

Thank you very much for your thoughtful and careful investigation of the Meetinghouse Way proposal.

I know you have heard it 100 ways, but this project brings up so many issues to consider -- from traffic and threat to our rural character to loss of green space, biodiversity and habitat loss -- and the applicants have not made a compelling enough case for why another development of this scale is necessary.

Please vote to reject this proposal. The island will be grateful.

Sincerely,

Mollie Doyle  
Chilmark
