

Dear MVC:

I would like to register my objection to the approval of the proposed Meetinghouse Way project. As Jeff Agnoli said in a recent letter to the MV Times editor:

The Island community looks to the commission to honor its inspiring charter and its critical mission, to think about future generations, and to protect our community's values, which include fairness and reverence for our fragile natural and social environment. A more equitable and sustainable future is ours, if we create it by wise decisions and actions.

I urge the MVC to please deny approval of the project. Thank you. Susan Feller,
