

Smartflower Eco

**Meeting House Place
139 Meeting House Way
Edgartown, MA
Smartflower Solar Installation**

Smart Flower Eco

Indepent : Self - cleaning and convection cooling keep Smartflower running at maximum efficiency.

Efficient : Smart tracking keeps Smartflower at the optimal angle to the sun throughout the day for 40% more power than roof-mounted panels.

Elegant : Unique and powerful features packed into an award-winning design.

Production : Generates 4,000 - 6,400 kwh annually, depending on your location
